

FreeAgent[®] GoFlex[™]

ULTRA-PORTABLE DRIVE *Pro*

Drive Only

Perfect for when you need to:

- Store or back up photos, movies, music and documents
- Carry files with you while on-the-go
- Access your files with both PC and Mac[®] computers

Capacities 500GB, 750GB

Protect. Store. Do More. With the world's most versatile drive.

The GoFlex[™] Pro ultra-portable drive delivers premium backup with encryption, which automatically and continuously helps protect all the files on your computer. The preloaded software also allows you to easily sync files between your computer and GoFlex Pro drive, so that you will have the latest files while on-the-go. But this is no ordinary external drive. As the core of the GoFlex Storage System, the GoFlex Pro drive is the world's most upgradeable external drive allowing it to deliver a truly customizable experience.

Access files with the interface of your choice.

Use the standard USB 2.0 interface or upgrade to USB 3.0, FireWire[®] 800 or powered eSATA by pairing the drive with the appropriate GoFlex upgrade cable. Combining the GoFlex Pro ultra-portable drive with a GoFlex upgrade cable allows you to take advantage of the high-performance 7200RPM drive inside, which delivers up to 40% faster file transfer speeds than the standard GoFlex drive.

Free your files.

With the included NTFS driver for Mac[®], you can now interchangeably store and access files from PC and Mac computers without reformatting. Once the NTFS driver is simply installed on your Mac computer, it allows you to access and store files in a PC compatible format*.

** Reformatting to HFS+ required to use backup software for Mac or Time Machine[®] software*

Extend your content beyond the PC.

The GoFlex ultra-portable drive is the heart of the GoFlex Storage System, and by combining it with other GoFlex Storage System products you can enjoy your content on your TV, access files from any PC or Mac computer on your network, from a mobile device or via the internet while on-the-go.
