INSTANT STORAGE FOR YOUR DIGITAL LIFE

Your work, your photos, your songs, your digital video, your memories. Store them all safely and securely in the Maxtor Personal Storage 3200 external hard drive. Ideal for the home and office, it's simple to install— just plug in the USB cable and your Personal Storage solution automatically appears as another drive on your computer. Perfect for the Home PC or laptop user who needs extra storage in a hurry.

Storage made simple

Use the extra capacity to free up the space on your PC or to add more of your favorite files – every 100GB of storage can hold up to 75,000 digital photos* (JPEG-normal), or 1,650 hours of digital music* (MP3), or 7 hours of DV video...

As cool as it looks

Beneath the sleek industrial design of the Personal Storage 3200 you'll find a surprisingly simple, affordable storage solution. The vertical stand helps keep your work area clutter-free. And Maxtor makes it reliable.

The Personal Storage 3200 solution is ideal when:

- You need simple, reliable add-on storage
- You need to easily handle your expanding collection of digital photos, mp3 audio files and documents
- You need a worry-free storage solution for your personal and work files

One gigabyte, or GB, equals one billion bytes when referring to hard drive capacity. One terabyte, or TB, equals 1,000 gigabytes when referring to hard drive capacity. Accessible capacity may vary depending on operating environment and formatting. Quantitative usage examples for various applications are for illustrative purposes and are based on the following assumptions: each hour of DVD-quality video is 2.1GB, each digital photo is 1MB, and each MP3 is 4 minutes long. Actual quantities will vary based on various factors, including file size, file format, features and application software. Specifications subject to change without notice.
